### Investment Strategy

The fund invests in Nordic-listed companies which are domiciled or exercise the predominant part of their economic activity in the Nordic region (Sweden, Norway, Denmark and Finland). This means that the fund has access to both world-class companies with strong global market positions and domestic companies positioned to become the winners of tomorrow. The Nordic region has enjoyed more robust growth than Europe as a whole over the past decade and its companies have sound financials and are positioned to benefit from global equity growth. The fund invests in a concentrated portfolio of Nordic's best positioned companies across all market capitalization with a mid-cap bias, using a pure fundamental bottom-up analysis focusing on internal research. The investment universe is screened using both internal and external sources where both absolute and relative valuations are considered.
